AUSTRALASIAN OIL & GAS
EXHIBITION & CONFERENCE
10-12 MAR 2021
PERTH CONVENTION EXHIBITION CENTRE

Submissions Close
6 October 2020

SUBSEA FORUM

CALL FOR SPEAKERS

The 2021 AOG Subsea Forum will be held in partnership with; the Society for Underwater Technology (SUT), Subsea Energy Australia (SEA) and Subsea UK. The technical sessions run across the 3-days of AOG and address trends, issues and developments in the Australian subsea industry.

It provides the ideal platform to share knowledge and debate the latest innovations and technologies with industry professionals from across the globe.

2020 has brought many changes to the world, and the oil and gas sector will now look at how to adjust and rise to the challenges ahead. The subsea sector played a key part in establishing Australia as a global LNG leader - further opportunities to build on that success will be a key focus at AOG 2021.

The scale and complexity of LNG projects around Australia have benefited from some of the best subsea engineering teams designing and creating world class technologies, subsea systems and pipeline infrastructure.

Cost efficiency is always a factor for new project development and the industry will look to the subsea sector for new innovations and smart technologies to enable future developments to remain economically viable.

As Australian fields move to a more mature phase, demand grows and opportunities arise that can add value through technologies and services in IMR (inspection, maintenance and repair).

Topics

We are seeking submissions in the following suggested areas but not restricted to:

- Innovation in subsea pipelines
- Marginal developments and lower cost models
- Remote intervention and robotics
- Control system
- Data analytics and artificial intelligence
- Smart monitoring and acquisition technologies
- Renewable energy and integration
- Energy transition technologies and net zero
- Late life management and decommissioning energy
- Digital Twins

Evaluation Criteria

- Submissions referring to case studies will be highly regarded
- Prior to submission, company and joint venture clearance must be obtained. Any perceived problems concerning clearance should be outlined when the paper proposal is submitted
- Ideally your submission will not have been presented before and should contain new information

Thanks to the generosity of our hosts and sponsors, delegate attendance will be complimentary.

Submissions are due by Tuesday 6th October 2020 via <https://aogexpo.com.au/subsea-call-for-speakers/>

Queries can be directed to the Submission Coordinator by email at aog.speakers@divcom.net.au
