& EXHIBITION CENTRE

FUTURE ENERGY FORUM CALL FOR SPEAKERS

Forming part of a broader conference and exhibition offering, the Future Energy Forum at AOG Energy is a free-to-attend, three-day conference where industry leaders come together to collaborate, challenge, and discuss the energy future.

Supported by the West Australian Government and major operators, the Future Energy Forum is the centre of topical discussions around the outlook of the industry, including opportunity in decarbonisation, hydrogen, decommissioning, offshore renewables and more.

SUBMISSIONS DUE :
29 SEPTEMBER 2023

Topics

- Role of Natural Gas in the Energy Transition
- Decommissioning
- Decarbonisation
- Offshore Wind
- Offshore Renewables (Wave, Current, Floating)
- Carbon Capture Utilisation Storage
- Critical Minerals, Battery Storage, Future Batteries
- Talent and Skills
- New fuels
- Hydrogen

Selection Criteria

- This forum is intended for sharing of knowledge and as such you should avoid a sales pitch and talking about your company, but instead focus on sharing new technology and knowledge, referring to case studies
- Ideally your submission will not have been presented before and should contain new information
- Consideration will be given to speakers prepared to join a panel discussion on their topic

Thanks to the generosity of our hosts and sponsors, delegate attendance will be complimentary.
