MARCH 2024
PERTH CONVENTION
& EXHIBITION CENTRE

SUBSEA FORUM CALL FOR SPEAKERS

Forming part of a broader conference and exhibition offering, the Subsea Forum hosted at AOG Energy is a free-to-attend, three-day conference covering subsea and offshore aspects of both conventional and new energy industries, the only one of its kind in Australia.

Showcasing the latest developments and technology, the Subsea Forum will be an environment to share knowledge, encourage debate, showcase capabilities and opportunities among peers, academics, and industry professionals.

Reflecting current industry trends, the 2024 Forum will focus on areas such as Offshore Wind, CCS/CCUS, Hydrogen, Decarbonisation, and Decommissioning with a key focus on protecting the environment and the transition to new, clean energy sources.

As offshore wind areas are being declared around Australia, including Victoria and NSW, and feasibility licenses being awarded, attention is being paid to the opportunities associated with transforming projects from ideas into real, large-scale projects.

In the conventional space the Australian industry is getting ready to design and execute major offshore projects such as Browse, Verus, Gorgon Stage 3, Crux, as well as some large decommissioning projects in WA and Victoria.

**SUBMISSIONS DUE :
29 SEPTEMBER 2023**

Topics

- Latest trends in subsea developments
- Carbon capture utilisation and storage
- Hydrogen/new fuels
- Offshore wind (motions, moorings, anchoring systems, cables and installation)
- Offshore renewables (wave, tidal and current)
- Late life planning and decommissioning
- Pipeline innovation and technology
- Cost effective subsea developments
- Control systems and remote operations
- Digital twins, data acquisition, AI

Selection Criteria

- Submissions referring to case studies will be highly regarded
- Prior to submission, company and joint venture clearance must be obtained. Any perceived problems concerning clearance should be outlined when the paper proposal is submitted
- Ideally your submission will not have been presented before and should contain new information
- This forum is intended for sharing of knowledge and as such you should avoid a sales pitch and talking about your company, but instead focus on sharing new technology and knowledge

Thanks to the generosity of our hosts and sponsors, delegate attendance will be complimentary.
