

Post Show Report

AOG Energy bought together a global audience to discuss the opportunities and challenges surrounding the energy transition in WA and across the globe. With the highest international delegation for many years, the event was buzzing with networking and collaboration as ideas, contacts, solutions, and opportunities were exchanged.

“That’s where real business is done. It’s not done in the boardroom with a presentation, it’s done through relationships, and this is where you forge them.”

EXHIBITOR SATISFACTION

Our Exhibitors attend AOG Energy to:

Network
with the industry

Create
brand awareness

Maintain
market presence

“ AOG Energy delivered on all fronts by providing current market information and the opportunity to connect with operators and vendors. Highly recommend for any local or international business that wants a direct view of the opportunities and main players.”

Conference Program

Built with the industry, for the industry, the free-to-attend conference program deep dived into the opportunities and challenges presented by the energy transition.

With significant focus on wind, CCS, the role of gas, hydrogen, talent and more, this year's conference program saw over 3,500 attendees across the three-days.

- Future Energy Forum
- Subsea Forum
- Knowledge Forum
- Forward Work Plan
- CODA Decommissioning Theatre

Speakers:

Hon. Reece Whitby MLA

Minister for Energy; Environment; Climate Action

Danny Woodall

Chevron Australia

Liz Westcott

Woodside Energy

Andy Evans

Oceanex Energy

Jane Wardlaw

Clean Energy Regulator

Networking Functions

The number one reason the industry attends AOG Energy is to network. With three sold out networking events, we hosted hundreds of industry professionals as they connected away from the exhibition floor.

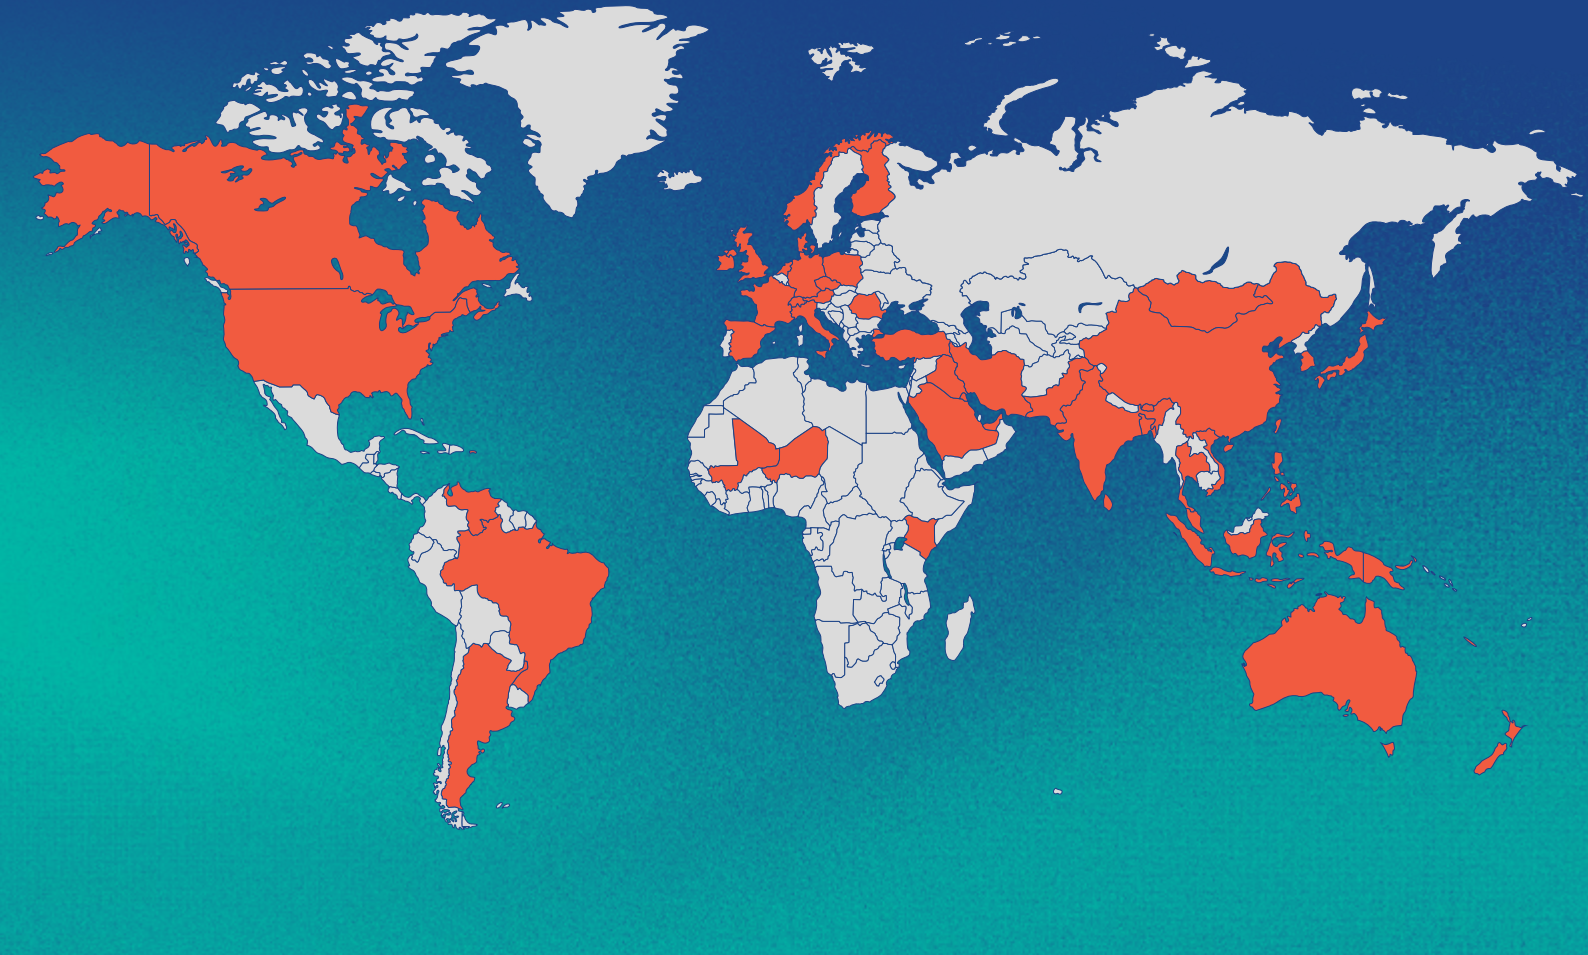

314 SUBSEA WELCOME DRINKS ATTENDEES

869 OPENING PARTY ATTENDEES

207 DIVERSITY & INCLUSION BREAKFAST ATTENDEES

“Great place to catch up socially and put a face to the name on emails – a good supplier catch up.”

A Truly Global Event

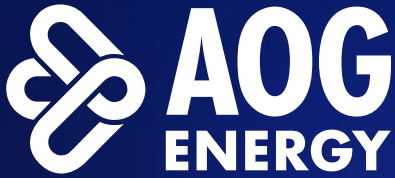

“AOG Energy is truly an international event.”

40 YEARS & STILL EVOLVING

COMING IN 2025

40 Years And Still Evolving, Energy Exchange Australia Coming in 2025

Introducing Energy Exchange Australia, the next generation of AOG Energy.

Building on the strong legacy of AOG Energy, Energy Exchange Australia will be a platform for forward-thinking individuals ready to discuss and shape the future of energy, tackling key challenges and driving the transition towards a decarbonised world.

At the heart of Energy Exchange Australia is connecting people with opportunity.

Launching to the Perth Convention & Exhibition Centre

Tuesday 11 – Thursday 13 March 2025
